```cpp
#include<iostream>
using namespace
std; int main()
{
int i,j,k,temp,n;     cout<<"enter the
number of rows => ";
     cin>>n;
    for(i=0;i<n;i++)
     {
      for(j=0;j<n-i;j++)
            cout<<" ";
           temp=1;
          for(k=0;k<=i;k++)
           {
      cout<<temp<<" ";
      temp=temp*(i-k)/(k+1);
            }
           cout<<"\n";
     }
}
```
